Dr. Richard W. Maack uses his extensive training and 18 years of experience to carefully evaluate his patients and develop a unique treatment plan for each one. As the founder and director of Synergi Facial Surgery and the adjacent Synergi MedSpa, he can offer options from the most modern surgery to lasers, to fillers, to nonsurgical rejuvenating procedures all in a relaxing environment. Dr. Maack completed his Residency through Washington University and is now an Associate Clinical Instructor at the School of Medicine. Board-certified in Facial Plastic and Reconstructive Surgery and in Otolaryngology, he is a specialist in Cosmetic and Reconstructive Surgery of the face and neck for men and women of all ages. Dr. Maack offers his patients fresh, new treatments like Erbium ProFractional laser treatments for wrinkles, fine lines, scars as well as pigment irregularities with improved results and less down time. This expert “Specialist of the Face” has also perfected the most advanced procedures involving lasers, minimal incision surgery and facial fillers. Dr. Maack and his staff at Synergi promise professional service and individual attention to everyone who walks through their door.
